Subject: Sago Plants

Hi Molly, Yesterday at about 4pm I was leaving work and observed an individual pulling our plants out of the pots. I asked him what was he doing and he stated that he was selling them. There were two already sitting on the ground and he was in the process of removing a third. I took his picture and called safety and he took off. I retrieved the two plant and re-planted them and notice this morning that we have four missing plants in the district. He also removed two of the plants from the Rowan bldg. Pictures of suspect is attached.
